This Month's Presentation

“Be the Master of Your Controls”

Presenter: Danny Lesandrini

After the tables are set, it's all about controls. Labels, text boxes, subforms and a cornucopia of others are at your disposal. Danny Lesandrini will show you how to bring them to heel using VBA code. Some of the techniques covered include:

- Change the font, backcolor and style of a text box
- Show and hide controls dynamically
- Load label captions based on table-driven values
- Resize subforms when parent form resizes

Virtually all control properties (with a few exceptions) can be set from your VBA code. See how to make your forms more flexible and extensible. Pick up tips on constructing a more user-friendly interface. Learn how to become the **Master of Your Controls**.

Our presenter, Danny J. Lesandrini, a Microsoft Certified Professional in Access, Visual Basic and SQL Server, has been programming with Microsoft development tools since 1995. He maintains a web site with free code samples at <http://amaze creations.com/datafast> and replies to all questions and comments sent to datafast@comcast.net.

Short Demonstration

“The Publishing and Marketing of your Favorite Computer Books”

A Message from the Editor

“Presentations and Presenters”

We are always looking for speakers and topic ideas for our monthly meetings. To volunteer to be a speaker or to suggest a topic, see our Vice President, Danny Lesandrini (vicepresident@daaug.org) or President, Sco Scofield

(president@daaug.org). You may also email one of them with "**DAAUG Speaker**" or "**DAAUG Topic**" in the subject line of your message.

This is your group and we need your support. You don't have to be a professional speaker to give a presentation. Your presentation can be about anything that's Microsoft Access related.

We are always looking for articles for our monthly newsletter. Send your articles to Communications@daaug.org with "DAAUG Article" in the subject line.

Please visit www.DAAUG.org for the latest news, consultant lists, officer email addresses and more.

This newsletter is being sent to everyone on the DAAUG mailing list, including members, past members, and people that have been associated with the group. If you are a non-member and wish to be removed from our list, please send an email to Communications@daaug.org with "REMOVE" in the subject line.
