Time: 6:00 PM to 6:30 PM - Networking
6:30 PM to approx. 9:00 PM - Main Meeting

Location: **Microsoft USA - Rocky Mountain District**
7595 Technology Way
Suite 400 (4th Floor)
Denver, CO 80237
([driving directions](#))

DAAUG Website: www.DAAUG.org

This Month's Presentation

None. There is no meeting in December.

Next Month's Topic (January 15th, 2009)

DAAUG Board Elections!!!

Please run for a DAAUG board position. By being elected to a position you will be providing your group with the assistance it needs and you will have a good feeling knowing that you are involved with your group. No position is difficult nor does any position take much time to fulfill. You will be glad you did it.

“Deployment Strategies for an Access Application”

Presenter: Paul Schnitzler

If **you** are interested in presenting to the group, please contact Jim Pilcher at daaugPresident@daaug.org.

Last Months Prize Drawing Winners

Alan Shrater	Wiley Business Card for a Free Wiley Book
Bill Morrill	Multi-colored Night Light
Christiaan Dismuke	Colored USB Cables
David Nealey	SQL T-shirt
Duane Hanstein	1/2 Price Class Certificates - Scofield Business
Eric Lommatsch	Jeweler's Tool Set
Galen Moore	\$20.00 Softpro Gift Certificate
J K August	Sybex T-shirt
Mark Evans	Multi-colored Night Light
Mark Trevithick	Powered Rotary Tool
Patrick Headley	Microsoft Ball Point Pen
Paul Schnitzler	Microsoft Planner

The Denver Area Access Group would like to thank all of our sponsors for providing valuable and fun prizes for 2008.

Thank You to ViaWest

Our DAAUG group would like to thank Steve Dzilvelis and ViaWest for giving several members a tour of the ViaWest, Cornell Data Center. ViaWest has five data centers in the Denver area plus other data centers in other states. The tour was very interesting and educational. If you have the need for a hosted server solution or know of someone who could benefit from server hosting, please consider ViaWest.

Denver Visual Studio User Group

As a service to our sister group...

Next Meeting:

Monday, January 26th 2008 – 5:30 to 9:00 PM

Location: Microsoft, Desert Mountain (Denver)

“Rethinking Object Orientation”

Presenter: Kathleen Dollard

Decades after object orientation design altered programming, it's still evolving, and we're still learning to use it better.

Many changes in the tools we use and how we write applications affect the approach we take to OOD. Some of these changes relate to architecture where new approaches like SOA, Workflow, and the layering revolution behind Silverlight alter the place of traditional OOD within the bigger picture of architecture. Other changes are language improvements that alter the very meaning of the phrase "object" from a design point of view.

While touching on architecture, this talk focuses primarily on the effect of language features like generics, extension methods, delegates/lambda expressions, partial classes/methods, reflection, anonymous types, and declarative programming. I'll show the growing role of interfaces as a contractual base in block based development and show a roll your own example of dependency injection so you understand this basic technique more often accessed through a tool.

For our complete agenda and e-mail, join the Denver Visual Studio Users Group™ at www.DenverVisualStudio.net.

Member to Member

Do you have something that might be of interest to other DAAUG members? Have a service? Something to sell? Looking for something? Then this section is for you. And no, it **doesn't** need to be computer or Microsoft Access related. Send your listings to daaugCommunications@daaug.org with "DAAUG: Member to Member" in the subject line.

Access classes by M.L. "Sco" Scofield

Check out our online schedule at <http://www.scobiz.com/ClassSchedule.asp>. We offer classes at all levels from beginning to advanced. To find the right class for you, check out our web site, call Sco at 303-757-7768, or send an email to Training@ScoBiz.com.

Be sure to ask for the special DAAUG member discount.

Linx Consulting, Inc. would like to help you

[Linx Consulting, Inc.](http://www.linxco-inc.com) offers database application development for organizations, large and small. Linx Consulting, Inc. develops applications using MS Access 2000-2007, SQL Server 97-2005, PostgreSQL 8.x, VB.Net 2003-2005, Crystal Reports and other technologies with a focus on database applications that use MS Access as the user front-end and MS Jet or a server database engine as the back end.

For more information on how we may serve you, please call Patrick Headley at (303) 916-5522 or visit our Website at www.linxco-inc.com. The entire Website contains examples of what we can do for your database application or Website. Each click on the sample link displays a different sample. Please take a look.

A Message from the Editor

“Editing the Newsletter”

As your DAAUG Communications Director, I have enjoyed working on the newsletter. Along with creating the newsletter I have created several templates and procedures that help me get started each month and streamline the process. As your “unofficial” Webmaster I have also created several new programming objects in the Website that make it easier for everyone to maintain. These projects have been educational, as well as entertaining.

The other board members have worked hard to provide timely material for the newsletter. They have also gladly helped me with the creation of the newsletter, when needed. Thank you to everyone who has contributed to the DAAUG newsletter.

While I may still run for the Communications Director position in 2009 I am weighing my options. My daytime job doesn't always have “normal” hours and that sometimes conflicts with my ability to work on the newsletter. Some things that I would like to do better are to add a few more graphics and other attention getters to each newsletter, where appropriate. I would also like to proof read the newsletter better. If I'm not the Communications Director in 2009, these are things that I hope my successor can do.

Thank you for allowing me to be your DAAUG Communications Director this year. I wish you a safe and happy holiday season and a prosperous new year. See you in January.

Patrick Headley,
DAAUG Communications Director

“Presentations and Presenters”

Do you follow events or news that is relevant to Microsoft Access users and developers? If so, email daaugCommunications@daaug.org with information regarding the topic. A member of the DAAUG Board of Directors will review the information and, if it is determined to be of value to the group your information may show up in the newsletter or we will make an announcement at the main meeting.

We are always looking for speakers and topic ideas for our monthly meetings. To volunteer to be a speaker or to suggest a topic, see our President, Jim Pilcher (daaugPresident@daaug.org). You may also email him with "DAAUG Speaker" or "DAAUG Topic" in the subject line of your message.

This is your group and we need your support. You don't have to be a professional speaker to give a presentation. Your presentation can be about anything that's Microsoft Access related.

We are always looking for articles for our monthly newsletter. Send your articles or article ideas to daugCommunications@daug.org with "DAAUG Article" in the subject line.

Please visit www.DAAUG.org for the latest news, consultant lists, officer email addresses and more.

This newsletter is being sent to everyone on the DAAUG mailing list, including members, past members, and people that have been associated with the group. If you are a non-member and wish to be removed from our list, please send an email to daugCommunications@daug.org with "REMOVE" in the subject line.

The email address that this message was sent from is not monitored. If you wish to send a board member an email, please click the appropriate link above.
